

ESN is pleased to announce that the awardees of the 2017 ESN-Young Members Symposia are:

Artem Dyuba (Moscow State University, Russia)

“CLARITY visualization of the fluorescent Cl-/pH-sensor expression in transgenic mouse brain”

Riccardo Maria Cristofani (University of Milan, Italy)

“BAG1 prevents misfolded proteins accumulation when autophagy flux is blocked in neurodegenerative disorders”

Yanina Sara Ivashko-Pachima (Tel-Aviv University, Israel)

“A novel avenue for protection against tauopathy: ADNP/NAP dramatically increase microtubule end-binding protein–Tau interaction”

Eva-Maria Blumrich (University of Bremen, Germany)

“The tyrosine kinase inhibitor tyrphostin 23 activates glycolysis and citric acid cycle of cultured astrocytes”

Andrew Tsatsanis (University of Leeds, UK)

“Lactoferrin is an iron transporter and key innate immune response protein that directly binds Amyloid- β Precursor Protein to promote amyloidogenic processing”

Elena Chiricozzi (University of Milan, Italy)

“GM1 neurotrophic properties are related to GM1 oligosaccharide – TrkA interaction”

Reet Link (University of Tartu, Estonia)

“Modulation of ligand binding to melanocortin 4 receptors by bivalent cations”

Sara Grassi (University of Milan, Italy)

“Role of rHIgM22, a remyelination-promoting antibody, in the regulation of acid sphingomyelinase activity in mixed glial cells”

The talks of the awardees are scheduled for Tuesday 22 August, 2017 at 11.00-13.00. Please put it in your diaries! We look forward to welcoming meeting participants at the Young Members Symposia during the ISN/ESN Biennial Meeting in Paris.
