

***First  
Announcement***

**ADVANCED SCHOOL**

***“From Neurodegeneration to Neural Carcinogenesis:  
Mechanisms and Common Biologies”***

**September 20-27, 2020, BRFAA, Athens,  
Greece**

PhD students and Post-docs are invited to apply to the 1<sup>st</sup> ESN School, which will provide deeper understanding of the mechanisms and common functional pathways in neurodegeneration and cancer, and the properties of the molecules involved in development of these two disease states.

Successful applicants will be fully supported.

**Advanced Lectures: 18**  
**Laboratory Modules: 13**

**Biomedical Research Foundation of the Academy of Athens**
