## **Call for Application ESN Advanced School for Neurochemistry 2023**

The International Society for Neurochemistry (ISN) supports the European Society for Neurochemistry (ESN) for the organization of an Advanced School of Neurochemistry for 20 students. After our successful first advanced school in Athens, which artfully combined excellent lectures with laboratory experience, we now open the call for our second School, planned for Spring (April or May) 2023.

### **Eligibility for application to organize the ESN school:**

- Current ESN membership
- Experience in organization and teaching
- Laboratory facilities and appropriate venue

The financial support amounts to \$40,000 to cover expenses of students and staff.

Applications should be sent electronically to the **ESN Secretary, Prof. Illana Gozes**, at [igozes@tauex.tau.ac.il](mailto:igozes@tauex.tau.ac.il)

The application must contain the following documents:

- Application letter (max. 3000 characters including spaces), indicating the name of the school, main topics to be covered in the lectures and laboratory work, and a tentative list of speakers
- A short CV (max. 2 pages)
- List of publications

**The deadline for applications is February 15th, 2022.**

Applicants will be informed about the results of their application by **April 15th 2022.**
